

Compound Word Trivia

Place the trivia cards face down in a stack in the center.

Each player needs a Compound Word Triangle. If you have Triangle A, you need Answer Sheet B. If you have Triangle B, you need Answer Sheet A.

Take turns drawing a card from the stack. If it is your turn, read the card, and look for a word on your triangle that matches what is on the card.

If you have a matching word, put a game piece on that spot and put the card in the discard pile. If you don't have a match, put the card on the bottom of the stack. Your partner will use the Answer Sheet to check your answer.
