

# Spin Sort

Place the header cards face up in a row in the center. Shuffle the word cards and place them in a stack face down.

Take turns spinning the spinner and reading the category that the arrow lands on. Look through the stack and choose a word card that belongs to the category. Place the word card under the correct header card.

Continue until all cards are sorted. If the spinner lands on a category that is complete (5 cards), spin again.

When you finish, write the categories and the words in your Notebook.
